Yealink UVC34 Datasheet

All-in-one USB Video Bar for Small and Huddle Rooms

The Yealink UVC34 is an all-in-one intelligent USB meeting device designed for small and huddle rooms as well as work-from-home scenarios. It features an ultra HD 4K camera with a 120° super-wide-angle lens and supports 5x digital zoom, delivering outstanding video quality. With an electric privacy shutter and AI technologies—including face detection and noise suppression—the UVC34 enables smarter and more secure video conferencing. Equipped with eight microphone arrays and a high-fidelity speaker, it provides excellent call quality even in full-duplex mode. Additionally, the UVC34 supports remote management via the Yealink Device Management Platform using its built-in Wi-Fi.

Key Features and Benefits

- Ultra HD 4K camera with 1/2.8-inch CMOS
- 120° super-wide-angle lens
- Electric privacy shutter
- 5m voice pickup range
- Auto Framing and AI Face Enhancement
- Built-in Wi-Fi, remote device management
- Applicable to most popular video conferencing Platforms

Ultra HD 4K Camera | Super-Wide 120° Field of View

Ultra HD 4K camera with 1/2.8-inch CMOS brings delicate details to UHD 4K video conference. With a super-wide 120° field of view, everyone in the conference can be seen without adjusting the camera. Moreover, the image brightness can be automatically optimized even in a dim or backlight environment, ensuring participants' faces can be seen clearly.

Immersive Visual Experience

UVC34 delivers not only the best-class image quality with natural color reproduction but also smooth video and details, endeavoring to optimize the meeting experience for users. UVC34 also supports multiple resolutions, including 4K/30FPS, 1440P/30FPS, 1080P/30FPS and 720P/30FPS to adapt to different displays and applications.

Secure Conference with Electric Privacy Shutter

The camera's electric privacy shutter automatically opens when the video conference starts and remains closed when not having video conferences, securing your conference privacy.

Built-in Wi-Fi, Remote Device Management

UVC34 can connect to a network via its built-in Wi-Fi, realizing remote device management, configuration, diagnosis, and upgrade.

All-in-One Design, Portable and Easy to Install, Improve Your WFH Experience

Integrating audio and video, UVC34 takes up less space and can be put into a backpack. It can be used by hanging on a TV or monitor without any deployment cost, improving your work-from-home experience.

Applicable to Most Popular Video Conferencing Platforms

As the standard UAC/UVC device, UVC34 applies to most video conferencing platforms.
